## **What is the Arizona Early Childhood Development and Health Board (First Things First)?**

In November 2006, Arizona voters passed Proposition 203, also known as **First Things First**, a citizen's initiative that funds quality early childhood development and health at the state and local level. The Proposition created a new state level board known as the Arizona Early Childhood Development and Health (AzECDH) Board, also known as the Board of First Things First, and the Regional Partnership Councils.

### ***First Things First Mission***

The mission of First Things First is to increase the quality of, and access to, early childhood programs that will ensure a child entering school arrives healthy and ready to succeed. This mission will principally be achieved through regional grants tailored to the specific needs and characteristics of the communities that the regions serve, with a focus on demonstrating improved outcomes around First Things First's six goal areas prioritized by the challenges the regions face. This mission is also accomplished through statewide initiatives that have been prioritized by the Board of First Things First.

This statewide policy and regional perspective are critical to the success of the First Things First mission. Early childhood development and health system initiatives from First Things First will be coordinated through statewide initiatives and regional priorities.

### ***First Things First Goal Areas***

The First Things First initiative specifies that programs undertaken by the Arizona Early Childhood Development and Health Board and the Regional Partnership Councils are to accomplish one or more of the following Goal Areas:

- Improve the quality of early childhood development and health programs.
- Increase the access to quality early childhood development and health programs.
- Increase access to preventive health care and health screenings for children through age five.
- Offer parent and family support and education concerning early childhood development and literacy.
- Provide professional development and training for early childhood development and health providers.
- Increasing coordination of early childhood development and health programs and provide public information about the importance of early childhood development and health.

## **What is the Funding Source?**

The First Things First initiative provides for the distribution of funding through both statewide and regional grants.

Of the monies expended in a fiscal year from the First Things First program account, no more than ten percent may be used to fund statewide grants or programs. Statewide programs are considered those implemented across regional boundaries and are designed to benefit Arizona's children as a whole.

This Request for Grant Application is specifically dedicated to funding regional programs. Regional funding is based on the approval of the Regional Partnership Council funding plans submitted to the

Board of First Things First. Funding is allocated to each Regional Partnership Council based on the population of children aged five or younger and the population of children aged five or younger whose family income does not exceed 100% of the Federal Poverty Level.

The Regional Partnership Council that is involved in the release of this Request for Grant Application includes the following:

- Yavapai Regional Partnership Council

### **Who is Eligible to Apply for this Funding Opportunity?**

First Things First awards grants to:

- Non-profit 501 (c) (3) organizations providing services in Arizona (both secular and faith-based)
- Units of Arizona government (local, county and state entities as well as schools and school districts)
- Federally recognized Tribal governments or entities providing services within Arizona
- Arizona institutions of higher learning (colleges and universities)
- Private organizations providing services in Arizona

All potential Applicants must demonstrate organizational, fiscal and programmatic capacity to meet the requirements described in the scope of work listed in this RFGA.

### **What is the Total Funding Amount Available in this Request for Grant Application?**

This is a ten (10) month contract with an option for renewal for two (2) additional twelve (12) month periods. Total funds available are approximately \$480,151 for the first funding period with the expectation that one award for an Administrative Home will be made as a result of this RFGA. First Things First reserves the right not to award the entire amount of available funds or to award an amount that is greater than the posted available funds. Renewal will be contingent upon satisfactory contract performance, evaluation and availability of funds.

### **Scope of Work: What Will This Grant Fund?**

The Yavapai Regional Partnership Council has identified the need for regional implementation of the following two strategies:

- Provide an Administrative Home to oversee the implementation of a Grant and Stipend Program to increase infant and toddler enrollment capacity at centers and homes that provide comprehensive, quality early care and education throughout the Yavapai Region.
- Provide an Administrative Home to oversee the implementation of a Scholarship Program to increase the number of children that are able to receive comprehensive, quality early care and education. Such scholarships are aimed at stabilizing families who are experiencing financial stress due to the economic downturn, whether they are working families, families looking for work, or families seeking new job skills to attain or maintain employment.

Successful implementation will result in an increase in the number of young children ages 0-5 that are able to receive comprehensive, affordable, quality early care and education in the Yavapai region.

Organizations responding to this RFGA must be capable of providing an Administrative Home to oversee and administer these regional programs. Specifically, these strategies will be accomplished through the provision of:

- Planning and Start-up Grants for development, expansion, or facility improvement in order to allow new child care centers and homes to offer and existing centers and homes to expand infant and toddler enrollment in regulated and quality settings.
- Provider Stipends to offset the higher costs of providing infant and toddler care to early care and education centers and homes that commit to provide an increased number of infant and toddler enrollment slots.
- Scholarships aimed at helping address the affordability of care for families of children ages 0-5 whose household income falls at or below 200 percent of the current Federal Poverty Level. Centers and homes serving low-income families may apply to the Administrative Home for scholarships that will reimburse the provider for the partial cost of child care based on a per child cost. This strategy will reduce, not eliminate, the parent's contribution toward quality childcare.

The Yavapai Region includes all of Yavapai County including the City of Sedona. All funding is to be directed to early care and education programs that serve families in one or more communities in the Yavapai Region.

There are roles and responsibilities critical to the success of these strategies that must be demonstrated by the Administrative Home Applicant. These include:

Reach: The Grants, Stipends, and Scholarships will be made available to qualified providers across the Yavapai Region. It is critical, therefore, that the Administrative Home has the ability to work with providers region wide.

Capacity: Administration and oversight of the Grants, Stipends, and Scholarships require business and fiduciary capacity, which include the business capacity to recruit providers, objectively review requests for funding, develop individual binding agreements with providers, issue a federal form 1099 to each provider and require documentation of all information related to provider eligibility, provider reporting, stipend amounts, and reimbursement requests. In addition, the Administrative Home is required to assure accountability through mechanisms such as random record audits. The Administrative Home's ability to implement the program while maintaining transparency and accountability are paramount to its success.

Experience: The Administrative Home should demonstrate sufficient experience in: administration and oversight of contracts; funding community-based providers of varying types and sizes, ideally including knowledge and experience working with early care and education or similar programs, including past experience working with small business, nonprofits, schools, or community collaborations.

Communication, Reporting and Evaluation: The Administrative Home must have capacity to develop, provide, and maintain effective and ongoing outreach and communications about Grants, Stipends, and Scholarships to program providers. The Administrative Home will be responsible for providing and collecting reporting information and evaluation data in compliance with First Things First and program description in this RFGA.

Reasonable Budget: It is the desire of the Yavapai Regional Partnership Council to support the infrastructure of the administrative home to be able to appropriately manage this strategy. However, it is important to limit administrative costs so that as much direct support as possible is provided to programs benefitting families.

Coordination and Collaboration: Effective Administration will require that the Administrative Home coordinate closely with the Regional Council, via the Regional Coordinator, on items including but not limited to outreach, public awareness, selection of Grant, Stipend, and Scholarship recipients, and resolution of challenges or difficulties. Additional coordination with local early care and education resources and organizations will be required.

The successful Applicant who becomes the grantee will serve as the Administrative Home, overseeing the implementation of the Yavapai Region's Grant, Stipend, and Scholarship strategies aimed at the following target populations:

*Grant and Stipends Aimed at Increasing Infant/Toddler Care:* The intended target population of this Grant and Stipend funding is high-quality, new and existing early care and education providers with the interest and ability to add or expand enrollment capacity to care for infants and toddlers, ages 6 weeks to 3 years of age who are in need of quality early care and education and reside or receive services within the boundaries of the Yavapai Region.

*Scholarships Aimed at Improving Affordability and Access to Care:* The intended target population of this funding opportunity is low-income families with children birth through age 5, in quality early care and education settings who reside or receive services within the Yavapai Region. The service numbers for this grant program is approximately 75 scholarships to low-income children enrolled in quality childcare. The successful Applicant will recruit eligible early care and education centers and homes to participate.

Both strategies have been selected for implementation in the region based on an analysis by the Region Partnership Council of the needs of families with young children in the region. A needs and assets assessment has shown there is a shortage of early care and education in quality settings for infants and toddlers throughout the region. A June 2008 Data Report from Child Care Resource and Referral identified 33 family child care providers and 15 child care centers that provide infant and toddler care in the Yavapai Region. It is estimated that approximately 800 infants and 800 toddlers need childcare throughout the region. There are an insufficient number of infant and toddler enrollment slots in early care and education programs offering quality services to meet this level of need.

There are a number of reasons why providers are reluctant to add or expand infant and toddler enrollment slots. It is well documented that providing quality early care and education to infants and toddlers is more expensive than care provided to older children. Recommended staff to child ratios for infants up to 15 months is one staff person for three infants. The ratio for toddlers is one staff person for every four toddlers. These higher staff to child ratios for infants and toddlers result in increased costs to provide infant and toddler care. For many early care settings it is more feasible to have more enrollment slots designated to older children where there is the ability to place more children in classrooms with less adult supervision, therefore generating a higher income to expense ratio.

Early care settings may also have additional costs associated with renovation, remodeling, or construction of space that is suitable to infant and toddler care. In a survey conducted by Child Care Resource & Referral in the Central Pima region in November 2008, space was identified as the most significant barrier to providing additional care to infants and toddlers by 32 percent of 91 centers that responded. While a similar survey of the Yavapai Region has not been conducted, it can be assumed that a similar portion of early care and education settings would also identify space as a barrier to providing infant and toddler care. Renovating pre-existing early care and education settings to increase capacity would address this barrier. However, most early care providers do not have the available financial resources.

These additional cost factors translate into the need to charge a higher price for infant and toddler care; a price that is typically not affordable to families seeking such care.

A Department of Economic Security (DES) Market Rate Survey conducted in 2008 reports the daily cost differences for children in early care and education settings at different ages.

- *Full time center-based care, for a child under the age of one year:* The median daily charge ranged from \$25.00 to \$38.00 across the Arizona districts with a statewide median charge of \$36.80.
- *Full time center-based care, for a child one to two years:* The median daily charge ranged from \$22.00 to \$34.88 across the Arizona districts with a statewide median charge of \$32.55.
- *Full time center-based care, for a child three, four or five years:* The median daily charge ranged from \$21.00 to \$30.00 across the Arizona districts with a statewide median charge of \$28.14.

It is clear that appropriate, quality care for infants and toddlers, when it is available, is inaccessible to many families due to cost. For these reasons, the Yavapai Regional Partnership Council wants to provide additional resources to childcare providers to add or expand quality early care and education opportunities for infants and toddlers.

While the high cost of infant and toddler care serves as a barrier to families, other families also struggle to find affordable childcare for three- to five-year olds – especially during tough economic times as family budgets are tightening and unemployment rates are rising. A needs and assets assessment of the region has shown there is also a lack of access and affordability to quality early care and education. Approximately 26 percent of the families of the children ages 0-5 in the region live in poverty, earning 100 percent of the Federal Poverty Level or less. Low-income families often find it challenging to afford early care and education.

Research supports positive outcomes of children's enrollment in high quality, consistent care and education programs in increasing early literacy and readiness factors that are necessary for school success. There are many examples of research, which supports high quality early childhood programming, and there are now researched models of affordability available as well.

#### Implementation Requirements

This Request for Grant Application is seeking Applicants to address these specific Goals and Key Measures:

##### **First Things First Goal Area to be addressed:**

- Quality and Access

##### **First Things First Goals to be addressed:**

- First Things First will improve access to quality early care and education programs and settings.
- First Things First will increase availability and affordability of early care and education settings.

##### **First Things First Key Measures to be addressed:**

- Total number of infants and toddlers enrolled and vacancies in regulated early care and education programs as a proportion of total population birth to age three.
- Current cost of early care and education for families as a proportion of the median income for a family of four.
- 

#### Implementation of Yavapai Region's Grant and Stipend Funding Strategy

As part of successful implementation and administration, the successful Applicant who becomes the Administrative Home will consider Applications from new or existing early care and education programs/providers, which describe how they plan to increase the number of quality early care and education slots available to infants and toddlers.

The Administrative Home will seek and consider Applicants for Grants and Stipends who may choose one or more of the three funding options (planning, start-up, and/or provider stipends) made available through this grant. The funding options are to be offered to provide flexibility to meet the needs of early care and education providers with varying needs. Early care and education programs/providers may seek the funding that best responds to the type of assistance they require.

- Planning Grants: New or existing early care and education providers, who are considering adding infant and toddler care, may apply for a planning grant to conduct strategic planning which may include business consultation to conduct market analysis and complete a business plan. A planning grant may also be used to determine the cost and feasibility of adding or remodeling space and may be used to pay for architectural drawings. All renovation and construction must be in compliance with the regulating body's standards. All programs receiving planning grants must also determine and demonstrate the ongoing financial sustainability of providing the new or expanded infant and toddler care as part of their planning process. It is understood that some recipients of the planning grant may determine that adding

infant/toddler care is not feasible. Funding for two (2) or more planning grants of up to \$20,000 each will be available.

- **Start-Up Grants:** New or existing early care and education providers who have made a decision to add infant and toddler care may apply for a start-up grant. Grants may be used to defray costs associated with physical renovations that will increase capacity, or improve the quality of the classroom in order to serve infants and/or toddlers. Programs may also identify a need to purchase equipment, furniture, or supplies. Requests for funding to purchase land, a building or to cover construction costs will also be considered. Construction can be defined as increasing the footprint of a building or the development or construction of a new building. Programs requesting funds of \$50,000 or more to purchase land, a building, or for a renovation/construction project must have a 50 percent secured match demonstrated at the time of the Application. Proposals to renovate existing buildings or to construct new space should be implemented in coordination with appropriate licensing authorities (i.e. Department of Health Services, Department of Economic Services Child Care Administration) and local or state authorities to ensure renovation/improvements that are made comply with appropriate laws and guidelines. All requests for start-up grant funds must be to cover costs that are directly related to the addition or expansion of infant or toddler enrollment slots. All programs applying for start-up funds to expand infant or toddler slots must provide documentation that they are regulated by the appropriate state, federal, or tribal authority/ies prior to receipt of start-up funds or in the case of new centers or homes, of their intent to become regulated once operating. Programs will also include information that demonstrates the local need, specific plans for sustainability, and other organizational and community support. A total of \$100,000 for one or more start-up grants is available.

Programs requesting start-up funds of \$50,000 or more to purchase land, a building, or for a renovation/construction project will also provide the following information:

- Description of other attempts to meet this need and narrative that describes how no other resources exist (other than matching funds) in the community to meet this need.
- Justification of how the project will be financially sustained and the source of operational resources after the life of the start-up grant award.
- Description of the anticipated possible ownership and maintenance for the capital asset should the entity no longer utilize the asset for the purpose for which funding support was approved by the Regional Council. Programs must demonstrate control of designated facility for a minimum of five years and the intent to continue serving infants and toddlers during this time period. A prorated repayment of funds will be required if infant/toddler care is discontinued within the five-year timeframe.
- Describe the source and amount for the 50 percent match required for purchase of land, a building, or for a renovation/construction project costing \$50,000 or more. Eligible matching resources include cash, private loans, business loans, grants, and funding donated by an organization for the project. Resources can derive from multiple sources and be combined to equal the required match amount.

- Provider Stipends: New or existing early care and education providers who add or increase infant and toddler care may apply for stipends to offset the higher cost of providing infant and toddler care. The purpose of the provider stipend grants is to directly offset the increased cost of providing infant and toddler care so charges to families remain affordable. The program must explain how the stipend will be used to keep charges for infant and toddler care affordable. All programs receiving provider stipends will provide documentation that they are regulated by the appropriate state, federal, or tribal authority/ies prior to receipt of stipend payments. If approved for the provider stipend, a center or home will receive \$250 per month (\$3,000 per year) for each new full day, full-year infant or toddler slot with an enrolled and participating child. Part day (4 hours or less per day) slots will receive a provider stipend of one-half of the full time rate or \$125 per month. These must be new infant and toddler slots that are added after May 1, 2009, where infants and/or toddlers were not previously served for the past year. Twelve new full day, full-year slots (or the equivalent if part time) can receive the stipend in the first year, with the Regional Council intending to maintain or increase numbers in subsequent years.

Applying for More Than One Funding Option: A program may apply for more than one funding option (e.g. a planning grant and start-up grant or a start-up grant and provider stipend). In these cases, the program will clearly describe the timeline for completing the activities associated with each phase of funding and how the phases are interconnected. The initial grant award will be to support those activities that can be completed in the initial grant period. Programs may indicate their intention to apply for funding in subsequent years by providing a multi-year timeline.

In implementing the Grants and Stipends strategy, the successful Applicant who becomes the Administrative Home will ensure that the following program requirements are implemented:

- Provider Eligibility: To be eligible for funding, programs must propose to add or expand infant and toddler enrollment slots. Any party, whether currently operating an early care and education program or not, who is interested in determining the feasibility of providing quality infant and toddler care may apply for a planning or start-up grant under this funding opportunity. Providers participating in the regional grants and stipends strategy must meet the following requirements (if and when operating):
  - Provider is regulated by DES, DHS, or if applicable, an Arizona Tribal Government, the Federal Government, or Military regulating body and is in good standing with the regulating body or bodies, as defined by First Things First, and
  - Provider is accredited by one of the State of Arizona Board of Education approved accrediting bodies or by one of the bodies accepted by the Arizona Department of Economic Security to receive an enhanced reimbursement rate (American Montessori Internationale; National Association for the Education of Young children; The National Early Childhood Program Accreditation Commission; Association for Christian Schools International; American Montessori Society; National Accreditation Commission for

Early Care and Education. For home-based child care: National Family Child Care Association; Council for Professional Development), or

- Provider is participating in Quality First or has applied for Quality First.

Programs/providers receiving funding as part of this strategy must complete all work in coordination and conformity with appropriate licensing authorities (i.e. Department of Health Services, Department of Economic Services Child Care Administration, appropriate governmental building construction/renovation authorities) to ensure compliance with appropriate guidelines, regulations, and laws. Applicants that become successful grantees will adhere to State of Arizona/First Things First procurement policies and regulations.

Programs meeting the following additional criteria will receive funding preference:

- Proposed services will be provided in a geographic area of the Yavapai Region that has few early care and education programs;
- The majority (more than 50 percent) of the proposed new services will benefit families from at-risk target populations, such as low income (family income at or less than 200 percent of Federal Poverty Level), teen parents, or children with developmental delays or disabilities;
- Proposed services are offered full day, full-week, and full-year round.
- Proposed services will be available for extended hours and or during weekends.

#### Implementation of Yavapai Region's Scholarship Strategy

In implementing the Scholarship strategy, the successful Applicant who becomes the Administrative Home will ensure that the following program requirements are implemented:

- Provider Eligibility: Providers participating in the regional scholarship strategy meet the following requirements:
  - Provider is regulated by DES, DHS, or if applicable, an Arizona Tribal Government, the Federal Government, or Military regulating body and is in good standing with the regulating body or bodies, as defined by First Things First, and
  - Provider is accredited by one of the State of Arizona Board of Education approved accrediting bodies or by one of the bodies accepted by the Arizona Department of Economic Security to receive an enhanced reimbursement rate (American Montessori Internationale; National Association for the Education of Young children; The National Early Childhood Program Accreditation Commission; Association for Christian Schools International; American Montessori Society; National Accreditation Commission for Early Care and Education. For home-based child care: National Family Child Care Association; Council for Professional Development), or
  - Provider is participating in Quality First or has applied for Quality First.

In addition to meeting the eligibility criteria, selection for provider participation will be based on the following priorities, in order of appearance:

1. Geographic representation throughout the Yavapai Regional Council Area (the location of the provider, not the location of the families receiving the scholarship);
  2. Centers and homes that offer full-day, full-week, year-round services to meet the needs of working parents, and
  3. Centers and homes that serve infants and toddlers.
  4. Exceptions to these priorities will be determined by the administrative home in conjunction with the Yavapai Regional Partnership Council through its Regional Coordinator and will be considered to further the goals of this strategy and meet the needs of the region.
- Family Eligibility: The successful Applicant who becomes the Administrative Home will be responsible for ensuring that only qualified families receive financial assistance through this strategy. In particular, the eligibility and financial assistance requirements are as follows:
    - Families with incomes at 200 percent of Federal Poverty Level or less that are not eligible for and receiving a DES childcare subsidy are eligible to receive a FTF scholarship.
    - All families that apply for a scholarship must show proof of income and those families whose income fall within the Arizona Department of Economic Security (DES) eligibility guidelines must agree to apply for DES childcare assistance or provide a copy of their DES Child Care Subsidy determination letter.
    - The intention of the Regional Council is that a family who remains eligible can receive the scholarship for up to one year based on time of enrollment. Income should be verified every twelve months.
    - Families eligible for a DES subsidy but placed on a waiting list are eligible for the First Things First scholarship during the time they remain on the waiting list.
  - Accountability and Documentation: Successful implementation of the regional scholarship strategy will necessitate a high level of accountability and documentation.
    1. Copies and documentation of family eligibility for scholarships is required and must be maintained at the provider level. Documentation must include any of the following: current pay stubs, written statement from employer, documentation of current receipt of public assistance such as KidsCare, Food Stamps, Free and Reduced Lunch Program, etc. If unemployed, a letter from previous employer whenever possible is required. For those who are self-employed, the most recent Individual Income Tax Form 1040, Form 1099, or W-2 forms are required.
    2. Scholarship Selection Process – Whenever possible, priority will be given to families who have experienced a decrease in income, job loss, or loss of other employment supports and who have a child or children from birth to age five who are in need of full-time care (not enrolled in kindergarten).

3. Number of scholarships funded per provider – The Yavapai Regional Partnership Council will determine the maximum number of scholarships that can be provided to early care and education providers prior to program implementation.
  - a. Provider must agree to fill all scholarship slots and is accountable for 90 percent enrollment in scholarship slots at any given time. When vacancies occur, the provider must immediately fill the slot with an eligible child. The provider may wish to contact the Child Care Resource and Referral to report that the slot is available.
    - i. Each provider must develop and maintain a waiting list to assure that eligible children enter the program as vacancies occur.
    - ii. Providers will reimburse the administrative home for all scholarship slots not filled for a period exceeding 15 days.
    - iii. Unused slots are subject to reassignment to another provider by the administrative home.
  - b. Attendance: In instances of chronic absenteeism by a child, the slot must be considered an enrollment vacancy. Chronic absenteeism is determined to be absence of more than 8 days in any month (part-time or full-time) for all days scheduled to attend.
    - i. If the absences are due to a physician documented illness or condition, no special action is required.
    - ii. If the absences are the result of an extenuating circumstance, the administrative home will make the determination regarding the slot in keeping with the goals of this strategy.
4. Payment – A provider may at no time be reimbursed for more than their customary rate. In other words, the scholarship amount alone or in combination with a parent copayment cannot exceed the provider’s customary rate. Participating providers will need to accept the scholarship and parent contribution as payment in full.
  - a. Scholarships may not be used to replace or supplant other funding sources including, but not limited to, DES, Head Start, EDBG, or other public or private scholarship programs.
  - b. Participating providers must waive all registration and other fees for families receiving scholarships, with the exception of enrichment activities such as music lessons or dance lessons.
  - c. The administrative home will develop a policy for instances where a participating home or center discontinues business or fails to participate in data submission requirements, proper record keeping or other program requirements.
  - d. Copayments – The Regional Scholarship strategy will reduce, not eliminate, the parent’s contribution toward quality childcare. Copayments may be assessed as long as the scholarship amount in combination with the parent copayment does not exceed the provider’s customary rate.
5. Reimbursements – Scholarship payments will be made directly to the childcare provider and not to individual families. Providers will be paid a one-month advance for the full amount for the number of scholarships allocated to them. During subsequent months, providers are required to document any difference in their actual, customary rate, less parent payments.

Subsequent payments will be adjusted to reflect any overpayment for scholarships going back to the start of services and projecting forward.

6. Appeals process – The administrative home will be charged with developing an appeals process for providers and families who have complaints or grievances that need to be addressed.

- Family Participation: The Yavapai Regional Scholarship strategy is available to families earning 200 percent or less of the 2009 Federal Poverty Guidelines. The maximum number of scholarships available to any family is three. Families will complete a simple Application designed for scholarships that includes, at minimum, the following: Name of Parent(s) or legal custodian of child(ren), Name of Child(ren), Age of Child(ren), Address, Telephone Numbers, Income (documentation to be attached), Days and Hours of Activity (e.g. employment, training, etc.), Validation of Citizenship or Legal Residency of Child(ren), and a Signed Declarative Statement as to the truth and accuracy of the information, Signature, Date.
- Coordination with the First Things First Emergency Child Care Scholarships: First Things First will provide an estimated 11,000 Emergency Child Care Scholarships statewide beginning April 2009 to respond to the economic downturn and ensure children receive continuity of care. This is a temporary strategy planned through the end of July 2009.

It is important to note that childcare centers and homes in all regions will receive Emergency Child Care Scholarships that will be distributed through the administrative home identified by FTF and follow the Emergency Child Care Scholarships Scope of Work. Applicants responding to this opportunity will be asked to coordinate and collaborate with this and other efforts of First Things First.

The Emergency Child Care Scholarships and the Regional Scholarships will align in the following ways:

- Income Eligibility: Both the Emergency Child Care Scholarships and Regional Scholarship Programs will target families with children from birth through age 5 whose household incomes are at or below 200 percent of the Federal Poverty Level (FPL). Children's proof of age and U.S. citizenship or legal residency is required.
- Lawful, Quality Care: Expanding access and affordability is implemented in conjunction with improving quality. FTF investments in both the Emergency and Regional Program should enhance the developmental needs of the child, preparing children for success in school and life. Participating centers and childcare homes are required to be licensed, certified or operating within the bounds of the law in regards to regulation and be in good standing. Programs must be accredited through an Arizona recognized national accreditation system or have submitted their Application to, or be participating in, Quality First.
- Utilizing Existing Resources First: Strategies focused on increasing access and affordability including scholarships must build on current resources and revenue streams. Providers and administrative homes bear the responsibility for assuring that all resources (including Arizona Department of Economic Security subsidy) are exhausted prior to utilizing FTF funding. Providers/ administrative homes will be expected to

demonstrate that other funding streams have been exhausted, and that existing supports will remain in place, when using FTF funds.

Variation between the Emergency Child Care Scholarships and Regional Scholarship Strategy:

- Scholarship Amount - The actual scholarship amount will be determined by the Yavapai Regional Partnership Council prior to program implementation. The scholarship amount will reimburse the provider for the partial cost of childcare based on a per child cost but will not be a full scholarship.
- Parent Contribution: For most early care and education programs, parent fees are the largest source of revenue, accounting for 60 percent of the total costs. For many parents, this is a barrier to high quality programs. Often a significant portion of families' incomes are going to the cost of early care and education. To address access and affordability for families, it is not the intent to eliminate the parent contribution but to make access to quality early care and education affordable and a reasonable proportion of a family's total income. Therefore, this strategy will reduce, not eliminate the parent contribution
- Administrative Home: Since Regions may choose an administrative home to administer their Regional strategy; the Yavapai Regional Scholarship strategy may be administered by a different administrative home than is in place to the statewide Emergency Child Care Scholarship program. The administrative homes will have the same qualifications, responsibilities and liabilities, which include the capacity to implement a scholarship program, the ability to understand complex program policies, public policy issues and the nature of the work including issues such as avoiding supplanting, and must participate in FTF reporting, data collection, and evaluation.
- Parent Work/School Participation: The primary focus of the Emergency Child Care Scholarships was to respond to the economic downturn by keeping families working or providing support so that they could quickly return to employment. The Regional Scholarship Program will similarly allow flexibility to determine the work, job seeking or school requirements of parents whose children are receiving a scholarship or stipend.

As part of their proposals, Applicants should describe how they will develop and implement a process for centers and homes to apply for scholarship funding. They should also address the following requirements. Specifically Applicants will be expected to:

- Work with Yavapai Regional Partnership Council to recruit centers/homes to participate in the scholarship program.
- Award scholarships based on provider eligibility criteria.
- Reimburse providers based on the scholarship amounts determined by the Yavapai Regional Partnership Council prior to program implementation.
- Ensure providers have a method in place to document family eligibility and ensure documentation is maintained at the provider or administrative home level.
- Ensure all public funds are fully utilized prior to issuing a scholarship.
- Ensure providers are enrolled in quality improvement efforts such as Quality First!
- Ensure that work and/or school requirements for parents participating in the scholarship program are followed. Whenever possible, priority will be given to families

who have experienced a decrease in income, job loss, or loss of other employment supports.

A total of approximately \$195,000 is available to implement the Grants and Stipends strategy. For budgeting purposes, the Yavapai Regional Partnership Council has indicated that funding is expected to be used in the following way:

- At least two planning grants should be made available for up to approximately \$20,000 each
- One or more start-up grants for up to approximately \$100,000 total
- Provider stipends of up to \$250 per month (\$3,000 per year) for approximately eight (8) to twelve (12) new infant/toddler slots

A total of approximately \$285,151 is available to implement the Scholarship strategy. For budgeting purposes, the Yavapai Regional Partnership Council has indicated that funding is expected to be used in the following way:

- Provision of approximately 75 scholarships per month at an estimated average cost of \$14 per day (\$3,528 per year). The actual scholarship rate will be determined by the Yavapai Regional Partnership Council prior to program implementation.

The award for the administrative home will be required to work with First Things First and the Yavapai Regional Partnership Council to further define parameters and maximum funding amounts for distribution to providers. Applicants should consider how costs to administer the program do not limit the number and impact of funding available to centers and homes.

In implementing the grants, stipends, and scholarship strategies, coordination and collaboration with all FTF grantees will be critical to developing a seamless service delivery system for children and families. Services and programs cannot be implemented in isolation and coordination and collaboration must occur within a region and across regions. FTF staff and Regional Councils will identify opportunities for collaboration and coordination with successful Applicants that become grantees of First Things First. Successful Applicants will be required to attend meetings and workgroups in the region being served to identify, develop and implement mechanisms around coordination and collaboration. Successful Applicants will also be required to share data with First Things First and the Regional Partnership Council that will be used for cross-regional analysis. Successful Applicants will also participate in cross-regional and statewide work that may include additional workgroups and meetings. In order to accomplish these tasks, Applicants should plan the appropriate budget that would include travel for monthly meetings within the regional area, two cross-regional meetings/workgroups held in various locations, and one statewide meeting to be held in Phoenix, Arizona. All travel related costs for these trainings and meetings should be included in the Applicant's budget and calculated using the State of Arizona travel policy as described on the budget narrative worksheet.

Any evaluation should be directly connected to the Goals, Key Measures, and the Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure program fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation. Successful Applicants agree to participate in the First Things First evaluation and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data includes the electronic submission (through the First Things First secure web portal) of performance measures and other evaluation data as proposed by the Applicant in this Request for Grant Application. Performance measure data must be submitted in its raw form (e.g., number of children served/proposed service number = 52 actual children served / 50 proposed service number).

Successful Applicants are also required to collaborate with the First Things First longitudinal evaluation. The Administrative Home is responsible to participate, and/or require provider participation, in child assessment activities associated with the longitudinal evaluation including tracking and reporting to First Things First data pertaining to participant attendance, enrollment, and demographic information, all of which must be maintained in a secure and anonymous manner. In addition, Applicants agree to allow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain voluntary parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. Applicants are expected to collect and report data to First Things First on the progress of achieving the Performance Measures. Performance Measures for purposes of this RFGA are as follows:

**Performance Measures:**

- Number of infants and toddlers served at new centers / proposed service numbers
- Number of infants and toddlers served at new family child care providers / proposed service numbers
- Number of childcare settings enrolled in Quality First!

No additional narrative is required.

All travel related costs for these trainings and meetings should be included in the Applicant's budget and calculated using the State of Arizona travel rate for mileage, per diem and lodging as described on the budget narrative worksheet. For more information about the state requirements, visit <http://www.gao.state.az.us/travel/>.

### **Evaluation Plan (15%)**

This component will address questions about how the program is working and what can be done to make the program more effective. The evaluation should be directly connected to the Goals, Key Measures, and Performance Measures and should determine the extent to which the program has accomplished the stated goals and key measures. The evaluation should also measure program fidelity by assessing which activities were implemented and the quality, strengths and weaknesses of the implementation. Successful Applicants agree to participate in the First Things First evaluation and will meet the requirements of the evaluation including, but not limited to, timely and regular reporting and cooperation with all First Things First evaluation activities. Timely and regular reporting of all performance and evaluation data includes the electronic submission (through the First Things First secure web portal) of performance measures and other evaluation data as proposed by the Applicant in this Request for Grant Application. Performance measure data must be submitted in its raw form (e.g., number of children served/proposed service number = 52 actual children served / 50 proposed service number).

In addition, Applicants agree to allow First Things First and evaluation consultants of First Things First to observe program activities on site and obtain parent consent for data collection related to evaluation efforts.

Performance Measures are defined by First Things First to determine the key impacts of the strategies, programs and approaches being implemented. 25. Complete the Evaluation Plan Overview table in Attachment J.
26. What resources (e.g., personnel, supplies, computer, etc) will be needed to complete necessary activities related to the quality data input and data collection of the program? In addition to a narrative description, the funds dedicated to evaluation should be reflected in the budget.

### **BUDGET NARRATIVE EXPLANATION**

The purpose of the budget narrative is to provide more clarity and detail on the various budget line items. The budget narrative should explain the criteria used to compute the budget figures on the budget form. Please verify that the narrative and budget form correspond and the calculations and totals are accurate.

**Personnel:** *Include information such as position title(s), name of employee (if known), salary, time to be spent on this program (hours or %), number of months assigned to this program, etc. Explain how the salary rate for each position was determined. If salaries are expected to increase during the project year, indicate the percentage increases for each position and justify the percent of the salary increase. Also, be sure to include the scheduled salary increases on the Budget Form.*

**Fringe Benefits:** *(Include a benefit percentage and what expenses make up employee benefit costs. Indicate any special rates for part-time employees, if applicable. Explain how the benefits for each position were determined. If using a fringe benefit rate, explain how this percentage is justified or approved by your agency.*

**Contracted Consultant/Professional Services:** *If professional consultants/services costs are proposed in the budget, define how the costs for these services were determined and the justification for the services related to the project. Explain how all contracts will be procured.*

**Travel:** *Include a detailed breakdown of hotel, transportation, meal costs, etc. Indicate the location(s) of travel, the justification for travel, how many employees will attend and how the estimates have been determined. Explain the relationship of each cost item to the project (e.g., if training or training expenses are requested, explain the topic of the training and its relationship to the project). Applicants **must** use the State of Arizona Travel Policy on rates for mileage, lodging, and meals ([www.gao.state.az.us/travel/](http://www.gao.state.az.us/travel/)).*

**Pass Through/Sub grants:** *In the event that this Application represents collaboration and the contract will be utilizing other sub grantees to perform various components of the program, include a list of sub grantees, programmatic work each sub grantee will perform, and how costs for each sub grantee are determined.*

**Supplies and Operating Expenses:** *Explain each supply item to be purchased, how the costs were determined and justify the need for the items. Items with a unit cost less than \$5,000 are considered supplies and should be listed in this category. All purchases should be made through competitive bid or using established purchasing procedures.*

**Administrative/Indirect Costs:** *Administrative costs are general or centralized expenses of overall administration of an organization that receives grant funds and **does not include** particular program costs. For organizations that have an established federally approved indirect cost rate for Federal awards, indirect costs mean those costs that are included in the organization's indirect cost rate. Such costs are generally identified with the organization's overall operation and are further described in 2 CFR 220, 2 CFR 225, and 2 CFR 230.*

**Applicants must list either Option A or Option B and provide proper justification for expenses included:**

**Option a - Administrative Costs:** *with proper justification, sub grantees may include an allocation for administrative costs for up to 10% of the total direct funds requested of the grant request. Administrative costs may include allocable direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall organization's management improvement costs; and costs of general liability insurance that protects the organization(s) responsible for operating a project, other than insurance costs solely attributable to the*

project. Administrative costs may also include that portion of salaries and benefits of the project's director and other administrative staff not attributable to the time spent in support of a specific project.

**Option B - Federally Approved Indirect Costs:** If your organization has a federally approved indirect cost rate agreement in place, grantees may include an allocation for indirect costs for up to 10% of the grant request. **Applicants must provide a copy of their federally approved indirect cost rate agreement.**

*Indirect costs are costs of an organization that are not readily assignable to a particular project, but are necessary to the operation of the organization and the performance of the project. ### **DEFINITION OF TERMS**

As used in these Instructions, Special Terms and Conditions and Uniform Terms and Conditions, the terms listed below are defined as follows:

1. **“Activity”** means activities, services, and programs direct or indirect or contracted means to carry out strategies.
2. **“Application”** means bid, proposal or quotation.
3. **“Applicant”** means a person who responds to a RFGA.
4. **“Attachment”** means any item the RFGA that requires an Applicant to submit as part of the Application.
5. **“Best Practice”** means that there is a technique, method, process, activity, incentive or reward that is more effective at delivering a particular outcome than any other. Best Practice can also be defined as the most efficient (least amount of effort) and effective (best results) way of accomplishing a task, based on repeatable procedures that have proven themselves over time for large numbers of people. Best Practice is used to describe the process of developing and following a standard way of doing things that multiple organizations can use for management, policy, and especially software systems.
6. **“Collaborate”** means to work jointly with others or together to conduct planning, decision-making, or program execution; may include exchange of information or resources.
7. **“Contract”** means the combination of the RFGA, including the Instructions to Applicants, The Uniform and Special Terms and Conditions, and the Specifications and Statement or Scope of Work; the Application and any Application Clarifications; and any RFGA Amendments or Contract Amendments.
8. **“Contract Amendment”** means a written document signed by the Grants and Contracts Procurement Officer that is issued for making changes in the Contract.
9. **“Coordination”** means to take a leadership role and responsibility for outcomes in bringing people, organizations, or resources together to conduct planning, decision-making or program execution; to bring into a common action, movement, or condition.
10. **“Days”** means calendar days unless otherwise specified.
11. **“Early Child Development and Health” (ECDH)** means the array of programs, services, and supports in both Early Care and Education and Health which serve children aged birth through five years and their families.
12. **“Exhibit”** means any item labeled as an Exhibit in the RFGA or placed in the Exhibits section of the RFGA. Exhibits are resource materials.
13. **“Goal”** means broad measurable statement of intent to set a future direction; what an Applicant wants to accomplish. The goal communicates the direction of (more, less, maintain) the result statement. Goals indicate what First Things First will do as part of the comprehensive early childhood system. Each Goal is a piece of a larger picture and is inextricably interrelated and linked with the other Goals.
14. **“Goal Area”** means First Things First’s over-arching goals- Quality and Access; Health; Professional Development; Family Support; Coordination; Communications.
15. **“Grantee”** means any Applicant whose Application has been accepted and has been awarded a Grant with First Things First.
16. **“Grants and Contracts Procurement Specialist”** means the person, or his or her designee, duly authorized by First Things First to enter into and administer Contracts and make written determinations with respect to the Contract.

17. **"Key Measures"** means measures that align directly with Goals and indicate what we want to change. Many Key Measures listed will indicate whether regular progress toward First Things First Goals will be achieved within three to five years. Other Key Measures listed will provide important data to determine ongoing impact on and progress of the early childhood development and health system.
18. **"Logic Model" (LM)** means a sequential program planning, implementation, and evaluation process that identifies and links all elements to achieve positive impacts on individuals and the community. Using a logic model supports strong program/project planning and design, promotes realistic expectations, leads to identification of meaningful evaluation data, assists in monitoring progress and tracking changes so that successes can be replicated and mistakes avoided. The logic model provides a standardized approach to grant planning, implementation and evaluation that is used across the Arizona Early Childhood Development and Health regions.
19. **"Performance Measures"** means a short-term impact that links to the Key Measures and include service numbers.
20. **"Promising Practice,"** means practices that were developed based on theory or research, but for which an insufficient amount of original data have been collected to determine the effectiveness of the practices. Practices in this category may have been studied, but they did not go through rigorous study designs. These practices have been tested but the results are not as clear as those results in the proven category above. Practices that fall in this category are based on some type of research – whether it is theoretical, qualitative, or quantitative – but data have yet to be collected on effectiveness. Promising practices may have been tested under different conditions and, therefore, may have a research foundation. However, the practices themselves have not been tested using the most rigorous research designs, or were tested in different contexts.
21. **"Proven Practice"** means the study design uses a convincing comparison group to identify program impacts, including randomized-control trial (experimental design) or some quasi-experimental designs. Sample size of evaluation exceeds thirty in both the treatment and comparison groups. Must directly impact one of the indicators.
22. **"Research-based"** means research that is based on the neuro-biological, behavioral and social sciences that has led to major advances in understanding the conditions that influence whether children get off to a promising or worrisome start in life.
23. **"RFGA"** means an a Request for Grant Application (RFGA).
24. **"RFGA Amendment"** means a written document that is signed by the Grants and Contracts Procurement Officer and issued for making changes to the RFGA.
25. **"School Readiness"** means the match between the range of developmental accomplishments (e.g., emerging literacy and numeracy skills, such as pretending to read stories or counting to 20, and small-motor skills, such as buttoning clothes and holding a pencil properly) and difficulties (e.g., such as restlessness and inattention, speech difficulties, and less than optimal health) that children bring with them when they arrive at kindergarten and the capacity of schools to educate all children regardless of the abilities, interests and talents they bring to school.
26. **"State"** means the State of Arizona, Early Childhood Development and Health Board who executes the Contract.
27. **"State Fiscal Year" (SFY)** means the period beginning with July 1 and ending June 30.
28. **"Strategy"** means general methods or overall approaches used to achieve goals. Strategies provide direction and are globally defined best practices that positively impact the lives of children and families served. Strategies work together and indicate how we will implement the Goals.
29. **"Subcontract"** means any Contract, express or implied, between the Grantee and another party delegating or assigning, in whole or in part, the furnishing of any service required for the performance of the Contract.
